INTRODUCTION

R. L. POLK & CO., publishers of the San Francisco Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1929 edition of the San Francisco Directory.

Confidence in the growth of San Francisco's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting San Francisco to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Francisco Directory will fulfill its mission as a source of authentic information pertaining to the city.

POPULATION

The estimated population of San Francisco is 756,188, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands.

FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 45 to 164, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of San Francisco. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like San Francisco, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 217 to 1600.

THE STREET AND AVENUE GUIDE is embraced in pages 19 to 36; in this feature the names of all streets and avenues are arranged alphabetically, giving beginning and ending, and line of general direction.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1601 to 1794. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

MUNICIPAL PUBLICITY

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of San Francisco, for business men, everywhere, realize that the city directory represents a community as it really is.

THE SAN FRANCISCO DIRECTORY LIBRARY

Through the courtesy of the publishers of the San Francisco City Directory, a Directory Library is maintained in the offices of the publishers at 604 Mission street, for free reference by the general public. This library is one of the system of more than 400, installed and operated in the chief cities of the U. S. and Canada, under the supervision of the Association of North American Directory Publishers, of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO. of California, Publishers.

San Francisco is located centrally on the coast in 37° 47′ 22-55″ N. Latitude and 122° 25′ 40-76″ W. Longitude and situated on a peninsula bounded on the west by the Pacific Ocean, the north and east by the Bay of San Francisco and on the south by wooded hills and fertile valleys. Its elevation extends from sea level to 956 feet. The city covers an area of about 48 square miles and is built principally on hills. The population as of January 1, 1929, was 756,188.

The San Francisco Bay Region was discovered in July, 1769, by Don Gaspar de Portola's soldiers who were seeking the Monterey Bay. In 1775 Don Manuel Ayala sailed the first ship through the Golden Gate into the San Francisco Bay. The San Carlos was the name of the vessel.

Years before, however, Sir Francis Drake brought his vessel, the Golden Hind, close to the Golden Gate and ran her ashore at what is now known as Drake's Bay. This was in 1579 and the first religious service in the English language was held on this continent by the chaplain of the Golden Hind.

In 1776 a land expedition commanded by Colonel Juan Bautista de Anza arrived on the San Francisco peninsula and established the Presidio and the Mission Dolores. In 1777 Padre Junipero Serra, father of the California missions, arrived in San Francisco. The settlement was known as Yerba Buena until 1847, when it became San Francisco.

In 1806 the Russians attempted to establish themselves in and about San Francisco. They established a settlement at Fort Ross, near Santa Rosa, but after a few years gave it up, disposing of all movable fixtures and arms to Capt. John A. Sutter of Sacramento.

In 1846 war was declared by the United States on Mexico and on July 9, 1848, Capt. John B. Montgomery of the United States Navy arrived in the sloop-of-war "Portsmouth" and raised the American flag in Portsmouth; thus without great excitement San Francisco passed from Spanish to Mexican and finally American rule.

San Francisco's greatest excitement perhaps came with the discovery of gold in 1848. People rushed here by every known mode of transportation and in thousands. The population increased steadily and the port became the most important on the Pacific Coast, which position it has steadily maintained.

Because of the number of lawless individuals during the fifties, the citizens organized the Vigilance Committee and after a short campaign succeeded in ridding the city of the law breakers.

GOVERNMENT—San Francisco has a combined city and county government, with legislative powers vested in a board of supervisors consisting of 18 members, 9 of whom are elected every two years. The mayor, auditor, treasurer, assessor, tax collector, coroner, recorder, county clerk, sheriff, police and superior court judges are elected by the people and serve four years. The mayor receives $6,000 per annum, though all other elective officers receive $8,000 a year salary. The mayor appoints and may remove for cause members of the police, fire, civil service, school, park, health and public

works commissions. It requires 14 votes on the board of supervisors to override his veto. San Francisco has operated under four charters, granted in 1850, 1851, 1856 and 1898. The last embraces the "initiative and referendum" clause.

HARBOR AND COMMERCE—Nature supplied the San Francisco region with one of the finest land-locked harbors of the world. To this has been added the most comprehensive docking and berthing facilities, rail and freight connections, modern and well-equipped warehouses, etc. The area of San Francisco Bay is 540 square miles. San Francisco harbor has 17 miles of berthing space and this is constantly being added to; 7,369,015 square feet of cargo space; 48 modern piers; facilities to dock the largest vessels; seven drydocks; 160 spur tracks; 58 miles of belt railways connecting piers and warehouses; car capacity for more than 2900 cars; 42 cranes, derricks and aerials.

The harbor is controlled by the State of California and is governed by a board of harbor commissioners appointed by the Governor. Of the 48 piers, most of them are assigned to steamship companies having their own fleets and operating their own schedules. Before the end of 1929 additional and larger piers will have been completed. Repairs and maintenance average $1,500,000.

The water-borne commerce of San Francisco Bay has trebled since pre-World War days. San Francisco, according to the Department of Commerce, at the close of 1927, ranked fifth among the 49 custom districts of the United States in the value of imports and exports. The arrival and departure of vessels, measured by registered tonnage, show that in 1923 there arrived in San Francisco 6792 vessels with a registered tonnage of 15,049,446 and 6830 ships with a registered tonnage of 14,802,870 departed, whereas in 1928 7555 ships with a registered tonnage of 18,110,440 arrived and 7705 ships with a tonnage of 17,895,006 departed. San Francisco's exports in 1923 were valued at $166,829,496 and imports at $160,763,714; in 1924 exports were $145,335,252; imports, $173,441,076; in 1925, exports, $197,226,858; imports, $183,009,446; in 1926, exports, $210,185,125; imports, $187,165,113; in 1927, exports, $174,555,772; imports, $200,004,238. The principal exports are mineral oil and gasoline, barley, canned fruits, raw cotton, cigarettes, tobacco, rice, flour, canned milk, canned salmon, sole leather, etc. The principal imports are raw silk, coffee, sugar, copra, cocoanut oil, burlap, newsprint, tea, bags, etc. The 1927 report of the United States Shipping Board shows that the San Francisco Bay foreign trade does not approach the domestic trade in tonnage, as indicated by the following figures: Total (long tons), 24,281,188; foreign, 3,262,811; intercoastal, 2,368,966; coastwise, 17,502,269; non-contiguous, 1,147,142.

Besides the movement of commodities by water, there is a large rail traffic in San Francisco. During 1928 it reached 263,762 carloadings in and out of the city, not including less-than-carload business.

San Francisco is also the ocean port for the great inland empire of California, 500 miles in length, 50 miles wide and containing 10,000,000 acres of fertile land, 5,000,000 acres of which is under irrigation. Approximately 45 per cent of the tonnage of the port is received from points on the Sacramento and San Joaquin Rivers, which drain a large portion of the "back country."

San Francisco is the port of call for 118 steamship lines. Of these 16 are intercoastal; 11 Oriental; 15 United Kingdom and continental Europe; 18 Mexico, Central and South America and Caribbean; 6 Australasia; 7 coastwise; 1 Alaska; 4 Hawaii; 3 round the world. The remainder are owned and operated by oil, lumber and fish interests.

San Francisco is served by five transcontinental railroads, which also operate north and south on the Pacific Coast and throughout the State of California.

INDUSTRIES—The last Federal Census of Manufacturing in 1927 showed the following conditions to exist in San Francisco and the territory included in what is known as the Metropolitan Area: San Francisco—Number of establishments, 2086; wage-earners, 42,078; wages, $61,108,185; value of products, $437,925,582. Metropolitan Area (five counties)—Number of establishments, 3279; wage-earners, 86,278; wages, $125,424,523; value of products, $1,023,149,416. Metropolitan Area (nine counties)—Number of establishments, 3743; wage-earners, 97,731; wages, $138,918,174; value of products, $1,113,476,058.

The principal industries are: Printing and publishing, coffee and spice, meat slaughtering and packing, bread and bakery products, motor vehicles, men's and women's clothing, foundry and machine shop products, canning and preserving, furniture, confectionery, ice cream, flour and grain products, rice, chocolate and cocoa products, structural iron and steel, electrical machinery, tobacco, cigars, cigarettes, tinware, lumber, jute bags, paper boxes, shoes, leather goods of all kinds, etc.

Industries ranked by the annual value of their production in 1925 included:

	Value of Output	No. of Wage-earners
Printing and publishing	$36,648,704	3,559
Coffee and spice	29,070,096	427
Slaughtering and meat packing	20,012,919	359

Furniture	11,036,262	1,716
Other food products	7,740,756	386
Confectionery	7,740,398	1,223

DISTRIBUTION—The Department of Commerce analysis of the statistics for the 11,422 establishments in San Francisco reporting at the 1927 census of distribution shows that the largest annual sales for 1926 were made by 1885 wholesale and retail grocery and delicatessen establishments. The sales of these establishments amounted to $389,895,400. Including the salaried employees, proprietors and firm members, there were 5967 persons at work in the establishments and their annual salaries amounted to $10,219,400. Next came the wholesale and retail automobile establishments, with sales amounting to $115,464,200. Following the automobile establishments, the largest sales were shown by 228 establishments engaged in the sale of building material; 134 wholesale and 94 retail, with total sales of $112,727,100.

FINANCIAL—San Francisco was created a financial center by the 1848 gold rush and has maintained its position since. In 1849, $2,000,000 in gold was exported. Today it leads every city west of Chicago in bank clearings, bank deposits, stock and bond sales and insurance business. It is the headquarters of the Twelfth Federal Reserve District; has the third largest bank in the country and nine of her banks rank among the first hundred financial institutions of the nation. The figures following were furnished by the San Francisco Chamber of Commerce statistical department after verification: Bank clearings in 1928 totaled $11,491,219,374, with only New York, Chicago, Philadelphia and Boston, in the order named, surpassing San Francisco. The steady growth of San Francisco in the last five years is indicated by the bank clearings, as follows:

BANK CLEARINGS

1923.....$8,049,061,000	1924.....$ 8,365,700,000	1925.....$ 9,499,311,406

Stock and bond sales for the past five years: 1923, $121,517,438; 1924, $141,204,333; 1925, $243,705,479; 1926, $426,760,907; 1927, $429,298,882; 1928, $1,991,833,089. Insurance—$273,000,000 worth of insurance business covering the entire West clears through San Francisco annually. Eight internationally known outside insurance companies have constructed their own buildings in San Francisco. Per capita wealth—Based on total value of all property in the city, the per capita wealth in 1927 was $2,700. Postal receipts in 1923 were $7,040,036; 1925, $8,136,898; 1927, $8,813,807, and 1928, $9,014,938.

PUBLIC BUILDINGS—First comes the group in the Civic Center, declared by the Duke of Connaught to be the finest thing of its kind in the world. The group consists: (1) City Hall of classic design, surmounted by an immense dome, higher than the dome of the Capitol at Washington. Cost, $4,000,000. (2) Exposition Auditorium, seating capacity of 12,000 in the main auditorium, with numerous smaller halls; cost, $2,000,000. (3) San Francisco Public Library; cost, $1,500,000. (4) State Building; cost, $1,000,000. There is now being built a War Memorial group of buildings, as a part of the Civic Center, to cost $4,000,000, consisting of opera house, American Legion halls, etc.

California Palace of the Legion of Honor, in Lincoln Park overlooking the Golden Gate, is a replica of the Palace of the Legion of Honor in Paris. It was presented to the city. The structure cost $2,000,000. United States Mint, located at Fifth and Mission streets, built in 1874; Post-Office Build-

ing, corner of Seventh and Mission streets; Ferry Building, at the foot of Market street on the waterfront, built by the State in 1896 at a cost of $1,000,000. It is 659 feet long and 156 feet wide, and in addition to serving as a ferryboat terminal, contains many State offices. The Customs House and United States Appraiser's Buildings represent an expenditure of more than $1,000,000. In Golden Gate Park are located the De Young Memorial Museum, Academy of Sciences, Steinhart Aquarium, Museum of Anthropology. Near the Presidio is located the San Francisco Palace of Fine Arts. At Kearny and Washington streets is the Hall of Justice, erected in 1910 at a cost of $1,000,000, containing police courts and the criminal department of the superior court.

PARKS—With its limited area of forty-two square miles, and classed as one of America's most congested cities in the matter of population per square mile, San Francisco is noted for its beautiful and extensive parks. There are forty-six parks, with a total acreage of 3000, and several large parks are under construction. In addition to the municipal parks, the several government reservations, the largest of which is the Presidio, comprising 1542 acres, all go toward augmenting the aggregate area of the city parks. The area given above does not include the numerous golf courses in and about the city. More than $15,000,000 has been expended on municipal parks since 1870. All of San Francisco's parks are "man-made." Originally only sand dunes marked the spots where today are gardens of rarest flowers, shrubs and giant trees. Even lakes, streams, waterfalls, mountains, valleys and dales were worked out by man, to say nothing of the miles of walks, bridle paths and boulevards traversing the parks. Golden Gate Park is one of the world's most noted playgrounds. It comprises 1013 acres and is about 3 miles long and a half-mile wide, extending from Stanyan street on the east to the Pacific Ocean on the west and lies in the midst of San Francisco's choice residential districts, the Sunset and the Richmond.

In the park are many museums, monuments, an aviary, aquarium, music temple, stadium, tennis courts, baseball grounds, football grounds, trotting and pacing horse track, athletic field and running track paddocks, and children's playgrounds. There are more than 25 miles of improved driveways in the park. Wild animals of many species are to be seen, while every bird and squirrel known to California roams or flies at will through the dense woods and shrubbery. At the western end of the park is to be seen the sloop "Gjoa," the only vessel that ever navigated the Northwest Passage and which was given to San Francisco by its owner and explorer, Captain Roald Amundsen, discoverer of the South Pole also; the gift was accepted by San Francisco June 16, 1909. The ship was hauled up on the beach and is protected by a high iron fence.

POLK'S
STREET AND AVENUE GUIDE
OF SAN FRANCISCO
1929

Copyright, 1929, by R. L. Polk & Co., of California

COMPILED FROM OFFICIAL SOURCES

EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (—) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (c), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.

ADDRESSING MACHINES

More than an Addressing Machine!

Thousands used for:

Sales Promotion
Record-Keeping
Routing
Imprinting
Shipping Forms
Collections

Disbursements
Production
Identifying

HAND OPERATED—snap in plate—pull down handle. Imprints records, shop orders, etc. Addresses everything.

ELECTRICALLY OPERATED. Prints thru a ribbon. Produces work you can scarcely detect from actual typewriting. Does work 20 to 30 times faster than typists.

AUTOMATIC FEED. Prints thru a ribbon. Feeds and addresses forms at great speed of 7,500 an hour. Prints bills, notices, etc., in duplicate, triplicate or quadruplicate.

DUPLIGRAPH prints completed letters—name, address, salutation, date and ENTIRE letter—ONE operation—signs in actual signature ink. 2,000 an hour.

KEYBOARD GRAPHOTYPE—same operation as typewriter. Fastest way to emboss plates. 30% faster than other electric Graphotypes.

CARDOGRAPH produces 1,500 messages on post cards in an hour! A completed card every operation—thru a ribbon. Has many uses.

The Addressograph representative brings to you methods of cutting expense, securing more business and increasing profits. He is equipped to lay before you, without obligation, a story of Addressograph service that has been an important part in building profits in thousands of large and small business institutions.

The Beauty Spot of California

"A CITY HOTEL WITH COUNTRY SURROUNDINGS"

A few minutes' walk from the University of California

Is beautifully situated in a sheltered corner of the Berkeley hills, looking out over San Francisco Bay and through the Golden Gate. It is surrounded by twenty-four acres of attractive grounds. The gardens, with their flower beds filled with semi-tropical plants and the velvety lawns shaded by handsome trees along the winding walks, show the result of many years of expert gardening.

There are many good schools in the vicinity of the hotel, making it very convenient for families. Nine-hole golf course, tennis courts, wonderful bridle paths for horseback riding. 40 minutes from San Francisco by Key Route ferry and Claremont train direct to door of hotel, 20-minute service. Attractive Monthly Rates.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

The Only Yawara Man in America.

MATSUYAMA YAWARA STUDIO

I guarantee to bring every nerve of your body to its highest pitch of efficiency and health—to give you a new lease on youth—with Yawara Method. I will give you strength and courage if weak or nervous. Mine is entirely different.

Prof. Matsuyama, who weighs 120 pounds and is 5 feet 3½ inches tall, can easily "throw" any 200-pound man. Is not this proof of Yawara's worth as a self-protector? Free demonstrations.

I can reduce or build up men and women without the use of medicines or mechanical apparatus with my centuries old method of Yawara System.
